MEMORANDUM FOR THE DIRECTOR

At a recent meeting of the Project Review Committee a project was submitted covering a covert information program [] A memorandum giving the outline of this program with the appended State Department endorsement is attached.

25X1

25X1 I took the position, which was concurred in by the PRC, that with all we had to do I did not think we could properly extend our efforts [] and that I doubted the wisdom of our attempting covert operations in that field. I also added that I felt that private foundations and organizations could more properly do this if the need was demonstrated.

As this involves a decision of principles, I told our people who spent much time and effort in developing the project that I would be glad to submit to you a brief memorandum from them presenting the other side of the story. After reading this memorandum I see no reason to change our original conclusions. I propose to adhere to this policy in the PRC unless you desire reconsideration.
